PREAMBLE

Properties development and facility planning, the two correlated terms form a base for any business unit or plant to be build or established at a particular location. This workshop will be focusing on enhancing the skills in relation to property development and facility planning (theoretically and practically) in the context hotel and catering industry .

Workshop will be focusing on the current scenario in this field as well as the future developments which are almost ready to take place in this field.

The topics or the areas to be covered during the workshop are as follows:-

- Hotel Architectural Design
- Interior Decoration Developments
- Facility Layout Planning with reference to public areas
(visits to the outlets etc)
- Project Management
- Energy Management
- Hotel Safety and Security Management
- Resort Planning and Development
- Kitchen Planning and Layout

The workshop is being organized keeping in view the work of eminent facility planners and practitioners, who have critically explored the process and products of the field.
